“TO REIGNITE CREATIVITY, innovation, and learning, leaders must re-humanize education and work. This means understanding how scarcity is affecting the way we lead and work, learning how to engage with vulnerability, and recognizing and combating shame. Make no mistake: honest conversations about vulnerability and shame are disruptive. The reason that we’re not having these conversations in our organizations is that they shine light in dark corners. Once there is language, awareness, and understanding, turning back is almost impossible and carries with it severe consequences.”
